## COMMISSION ARRANGING FOR 50TH ANNIVERSARY

Of the Union and Confederate Veterans Which Is to Be Held in the Year 1913.

The commission arranging for the 50th anniversary of the battle of Gettysburg was in session last evening preparing preliminary plans for the reunion of Union and Confederate veterans in 1913.

At the meeting of the commission a suggestion by a Connellsville veteran was given serious consideration. It was while returning from the dedication exercises held last month that Captain J. H. Halsey met Captain Richard Boyle, secretary of the commission to arrange the reunion. In commenting on the lack of proper facilities to accommodate visitors at Gettysburg, Captain Boyle expressed some doubts regarding the success of the 1913 reunion unless other arrangements for sheltering the veterans were made.

Captain Halsey suggested that the National Guard of each State loan sufficient equipment, in the shape of tents, etc., to shelter its delegations to the reunion.

Captain Boyle considered this a splendid suggestion and promised to bring the matter before the commission, which met last week.

## SIX MEN ARE INJURED IN RIOT AT REPUBLIC WORKS; ITALIANS AND POLES THERE CLASHED.

Three Men of Each Nationality Required the Services of a Physician to Patch Up Injuries Inflicted by Rocks—All Six Participants Are Under Arrest.

Special to The Courier.

UNIONTOWN, Oct. 17.—In a race riot at Republic Saturday night six men were injured by rocks and stone thrown by the parties involved in the clash. The services of a physician were required to patch up three of the men.

Three Italians and three poles were the principals. One of the Polish men got drunk and was being assisted to his home by two companions. As it was dark the two men got into the wrong house, from which they quickly withdrew and proceeded to start over again. House 59 was their next goal, but proved to be the home of Pietro Renzetti. Two boarders were home at the time. After the intruders had been ejected, an argument started on the porch.

Which side opened the riot first is in dispute, the Italians claiming the Poles started the trouble, which is denied. Besides the rocks and stone that flew in all directions, three shots were fired, though no revolver was found on any of the men, or about the premises.

Mario Doleo was the most seriously injured, his left eye receiving a wound that nearly knocked it from the socket. Jim Pomey was thumped on his head until two lumps as large as an egg were raised. The flesh was badly cut. Pietro Renzetti, the boarding boss, was the third member of the Italian party.

Only one of the Poles was caught by Special Officers Jesse D. Wyatt and C. E. Weaver, who were summoned. He is Joe Groat of Tower Hill. On being brought before Squire John Boyle yesterday, he made information charging the three Italians with assault and battery.

The men were later arrested by Constable Dick Woods, and today Renzetti brought like charges against the three Poles.

Forfeits were posted for a hearing to be held as soon as the other two Poles are captured. It is not known how badly they were hurt. Groat received a long cut on his chin.

## CONNELLVILLE HIGH DOES WELL IN JOHNSTOWN.

Held Crack Eleven of Flood City to a Fluke Touchdown at Johnstown Saturday Afternoon.

The Connellsville High School football team did itself proud at Johnstown on Saturday by holding the strong team from that place to a fluke touchdown. The final score was 5 to 0 in favor of Flood City boys and but for a forward pass that went wrong and enabled the heavier team to cross the line, the game would have been a tie.

This is the lowest score the Connellsville boys have ever held Johnstown since athletic relations were established several years ago. Last year the score was 16 to 0 and when here Thanksgiving Day.

Connellsville High School and other stars the Johnstown boys were held to a 5 to 0 score on one occasion. Johnstown swamped Wilkesburg High, which in turn defeated the strong Shadyside aggregation. It can be seen by this comparison that Johnstown has a mighty strong team and that Connellsville has earned its right to be classed among the best High Schools in the State, from an athletic standpoint. Incidentally Uniontown lost to Washington High 5 to 0 on Saturday. Washington plays here Thanksgiving Day.

## HENRY REGER ONLY SURVIVOR OF MEXICAN WAR IN STATE.

Death of William Freeman in German Township Gives Connellsville Man Unique Distinction.

### COMES FROM MILITANT FAMILY

Grandfather Saw Service Under "Light Horse" Harry Lee in Revolution—Fought in Both Mexican and Civil Wars and Saw Much Service.

With the death of William Freeman of German township, the last surviving member of the Mexican War in the State of Pennsylvania is Major Henry L. Reger of Connellsville. He is the only Pennsylvanian carried on the pension rolls as a veteran of that war. Mr. Reger also served in the Civil War. His grandfather, Henry Reger, was a non-commissioned officer under "Light Horse" Harry Lee in the Revolution.

Henry L. Reger is almost 85 years of age. It was January 2, 1847, that he enlisted in the company formed here under Captain Quail, a physician, and Lieutenant S. S. Sturgeon, the latter from Uniontown, and known as Company H of the Second Pennsylvania Volunteers. The next day the company went to Uniontown and from there to Brownsville and to Pittsburgh by boat. There were 92 or 93 men in the company. At Pittsburgh, William Roberts of Uniontown was elected Colonel of the regiment. The men were then equipped and began to move, but Captain Quail took him along anyhow. The company was taken to New Orleans by boat and from there sailed to Vera Cruz. There were 5,000 soldiers on the trip from New Orleans to Vera Cruz. After a siege of six weeks the city surrendered and the troops returned to this country.

Reger came back to Connellsville with Thomas H. Davidson after having been gone only two months and two days. He and Davidson then enlisted in Company K of the Eleventh United States Infantry, one of the eight additional regiments formed for Mexican War service. They went to Newport News, sailed from there to Vera Cruz and joined General Winfield Scott's forces at Puebla. The march to the City of Mexico then began. Reger's regiment lost all but 28 of its men in this campaign. Reger returned to Connellsville after the war. During the Civil War he served in the 55th Pennsylvania Volunteer under Colonel Howell. With him during this war were his brothers, Joseph of Satorville and George of Chicago.

Mr. Reger in his younger days was in the theatrical profession and put on the first show ever seen in Connellsville. Following the Civil War he went west and saw the settlement of Utah by the Mormons.

## Wireless Men Eagerly Seeking Word of Wellman

United Press Telegram.

BIASCONSETT, Mass., Oct. 17.—Wireless operators are eagerly watching for a message from Walter Wellman, who is attempting to reach Europe in his big dirigible balloon, America.

Wellman expects to receive word of the balloon through inward bound ships. It is believed Wellman is so far out that it will take a double relay of messages.

The weather is perfect today with a brisk western wind.

## WOMAN'S DAY OBSERVED BY UNION FARMERS' CLUB.

Annual Affair Is One of the Most Important Sessions That Is Held

Woman's Day was celebrated Saturday at the regular monthly meeting of the Union Farmer's Club of Fayette county held at the home of Mr. and Mrs. A. C. Ogilvie near Lonsenring No. 1. President T. H. Smith had charge of the meeting. The event is celebrated annually by the Club and is one of great importance. The subject for discussion was "The Home."

The program was as follows: "Training of the Children," Mrs. John G. Christ; "The Attraction of the Home," Mrs. T. H. Smith; "Social Gatherings for the Boys and Girls," Mrs. S. W. Dunn; query, "Should Women be Allowed the Right of Suffrage," Mrs. Josiah Freed. Mrs. John Jank also gave a short talk on the subject and at noon a luncheon was served by Mrs. Ogilvie. The meeting was largely attended by farmers and their families from all over Fayette county. The visitors were Mr. and Mrs. John Fritz of Scotland. The next meeting will be held Saturday, November 19, at the home of Mr. and Mrs. S. W. Dunn. "Profitable Occupations for the Farmers' Families," will be discussed.

## Woman May Tell Real Reason for Ketchel Murder

United Press Telegram.

SPRINGFIELD, Mo., Oct. 17.—Through Goldie Smith, held as an accomplice in the Ketchel murder, the authorities hope today to learn the real reason of the shooting. The inquest by Coroner Nichols will be held tomorrow morning and both the confessed murderer, Display, and the woman will be summoned.

Ketchel's body was sent to Grand Rapids this afternoon for burial. Messages of condolence were received today by General Dickerson from Johnson Sullivan, Fitzsimmons, Corbett, Peppie and other fighters.

## TWO NEW PATIENTS.

Receiving Treatment at the Cottage State Hospital.

Two new patients are at the Cottage State Hospital. Patrick McGuffey of Lonsenring No. 1, aged 28 years, is at the hospital for treatment of an old injury. About three years ago he met with an accident which resulted in a fractured clavicle. Since that time the fracture has been giving him more or less trouble. Tomorrow morning he will have the bone reset.

Albert Pringley of Mill Run is having his right hand treated for a bad infection.

## Portugal Cuts Loose From Both the Church and the Crown.

United Press Telegram.

LISBON, Oct. 17.—Portugal took the final step today to wipe out all traces of royalty and separate forever the church and the state. The provisional government issued a decree banishing forever the house of Braganza. All orders of nobility are abolished and all titles revoked.

It was also decreed that all state functions formerly handled by the church be administered in the future by members of the government. The church will have no voice in the management of the state or any of its coordinate branches. The school system is particularly divorced from the state.

## ORPHANS' COURT SESSION HELD.

Several Accounts Are Approved and Distribution Is Ordered.

### RIFFLE ESTATE IS SETTLED

Josephine Melo Is Awarded Her Widow's Exemption in Case Where Husband Left Everything to His Friend, Guardian, Appointed.

UNIONTOWN, Oct. 17.—A short session of Orphans' Court was held this morning at which time orders in various estates were handed down, accounts approved and guardians named.

The case of Josephine Melo of South Connellsville against the estate of her husband, Carmelo Melo, to recover the widow's exemption of \$400 was ended this morning when Judge James C. Work of Orphans' Court made an order granting her petition. The two were married June 6, 1887, and separated the following October. Carmelo died in February, 1910, leaving all of his property to Thomas Mancuso.

The petition of B. Stanley Smith, executor of the estate of D. P. Smith, for leave to execute deeds to Clark Swaney according to contracts made by the deceased, was granted. Swaney agreed to purchase property in Georges township from Smith and had paid the purchase price, \$550, before a deed was delivered.

By agreement of the legatee Judge Work made an order dividing the estate of the late William Riffle, amounting to \$122,438.54 into 1-10 cash and 1-10 mortgage shares. The children are William P. Riffle, Hulda J. Riffle, Emily E. Riffle, Samuel E. Riffle, Solomon G. Riffle, Sarah E. Riffle and John H. Riffle. Elton A. Black and Mary M. Jewett. The mortgage was given by James R. Gray, William W. Parshall and George S. Harrah to the executor of the estate, Samuel E. Riffle and H. F. Dotyler. Riffle died January 30, 1909.

At the audit of the estate of David Johnson, who died in Uniontown in November 1909, the Recorder certified to a mortgage given by David F. Johnson to Susan Emery, dated February 10, 1908. This mortgage was given to secure \$2,000 on 75 acres of land in German township. According to an order handed down this morning the decedent had no middle letter in his name and it was found that there is a David M. Johnson living near Masonstown. The final account of Joshua B. Homacker, executor of the estate, showing a balance of \$348.75 was approved.

In the estate of Robert Linderman of Ohio's Judgments had been brought against the estate by J. R. Campbell for \$67 and Isaac Pinkney for \$125. The court, on examination of the petition of William M. Kern, executor, finds these judgments were lifted as liens against the estate of Robert Linderman, who died in 1895, and not the present estate. The final account of Ross R. Linderman, executor, was approved.

Final accounts were approved in the estates of Joseph Mack, who died January 15, 1910, no balance; Constant Ott, died March 17, 1910, balance \$4,115.67 for distribution.

In the estate of Hazel Pegg, a minor, the account of the Citizens Title & Trust Company of Uniontown, guardian, showing a balance of \$215.49 was approved. The ward became of age June 27, 1910, and was married to Coby S. Bell.

In the estate of Jane W. Work, who died at Dunbar November, 1905, a balance of \$2,759.50 was ordered distributed.

### Commissioners at Ohio.

County Commissioners J. S. Langley and E. H. McColland drove to Ohio this morning to inspect the bridge of the Yough at that point. A new flooring is needed, and numerous other repairs will likely be made.

## EXHIBITS BABY SHOES SIXTY-ONE YEARS OLD.

## OCTOBER WEATHER HAS BEEN IDEAL.

Aside From the Absence of Badly Needed Rain Month Has Been Fine.

### SUNDAYS REMARKABLY FINE

Pedestrians Turn Out in Force and Inspect Progress on the Western Maryland—Weather Not So Good for the Ambitious Nimrods.

The brand of weather handed out this month has been exceptionally enjoyable save for the fact that rain is badly needed and the drought has assumed serious proportions in some quarters.

Yesterday, like many Sundays that preceded it, was just the day for a tramp through the woods and out into the country. It was too dusty for comfort to those who took automobile trips, but for those who tramped over the hills and through the dales there was nothing to be desired.

The right of way of the Western Maryland east of town was dotted with pedestrians, curious to mark the progress being made on the road. This has become a weekly hunt for many. Good progress is being made, especially by the Robert Hill Construction Company on that part of the contract east of the Trotter Water Company's pumping plant.

The temperature yesterday was 53 in the morning and 70 in the afternoon. This morning the mercury registered 61 at eight o'clock. As yet there has been practically no frost in this section but it is not believed it will be many days before a change will come in the weather and the first taste of winter will sweep over the region.

The hunters are turning out in full force but the weather has been against them. There are still too many leaves on the trees and the underbrush has not cleared away sufficiently for the best hunting.

Judging from the parties that liked to the mountains yesterday and today there must be an average of three ninetails to each pheasant.

### Marriage Licenses Issued.

The following marriage licenses were issued this morning: Herbert Connell, Connellsville, and Matilda Pegg, Uniontown; John David Gaudin, Connellsville, and Carrie Kelley of Greensburg; Elva M. Van Sickle, Wheaton township and Lenora Hawes of Farmington.

## EXHIBITS BABY SHOES SIXTY-ONE YEARS OLD.

George Hileman Bought Them at Cheat Iron Works in 1849.

George Hileman of No. 276 East Fairview avenue has placed on exhibition at Hooper & Long's store a pair of baby shoes 61 years old. Mr. Hileman believes these are the oldest pair of shoes in this part of the State. They were purchased in 1849 from the store of the Cheat Iron Works for his little daughter, Ellen Sophia Hileman, who died in infancy.

Mr. Hileman was employed at the iron works in those days. The plant was located eight miles up the Cheat river. Besides a rolling mill the company also operated a nail factory and three furnaces, old Henry Clay, Woodgrove and another the name of which Mr. Hileman cannot recall.

The products of the iron works were boated in keel boats down the river to Brownsville. The greatest run at the nail works was 195 keels in one day. Three hundred ore miners were employed. It was figured in those days that the section around the Cheat was destined to become the industrial center of the vast country west of the Alleghenies. Today it is one of the wildest sections of mountain country.

Thomas Jarrett, who now lives with a daughter in Uniontown, was employed with Mr. Hileman by the old Cheat Iron Works.

## Judge Hand Did Not Impose Stiff Prison Sentence

United Press Telegram.

NEW YORK, Oct. 17.—Judge Hand of the district court had another opportunity today to give a prison sentence for smuggling but, as before, only imposed a fine.

Mrs. Mayne McKenna of Chicago, said to be related to several big peddlers in that city, was accused of smuggling French gowns. She was fined \$1,000.

A portion of the stable was rented by Harry L. Kropp, the West Side grocer. His horse and wagon were rescued from the flames by early arrivals. Small boys and cigarettes are supposed to have caused the blaze, there being nothing about the barn that could have started a fire.

## Martial Law Follows Bomb Outrages Today

United Press Telegram.

PARIS, Oct. 17.—There is practically martial law as the result of numerous bomb outrages. A terrible explosion this morning outside the home of Director Massard of the Nationalist paper Patrie and adjoining the home of Sarah Bernhardt did great damage but no lives were lost.

Placed to the door was a paper saying "First warning from the strikers."

Another bomb in the Ternes quarter injured a street cleaner. Twenty anarchists have been arrested. The Socialist papers today print cartoons of Premier Briand being shot.

## Supreme Court Sends Hoffstot To Pittsburg for Graft Trial.

United Press Telegram.

WASHINGTON, Oct. 17.—Frank N. Hoffstot, president of the Pressed Steel Car Company, must return to Pennsylvania and be tried upon charges of councilmanic bribery. The Supreme Court of the United States today handed down a ruling against Hoffstot and sustaining the contentions of District Attorney W. A. Blakely.

This marks the end of a bitter fight on the part of the car magnate to evade trial in Pittsburg. Hoffstot was indicted along with other of Pittsburg's prominent citizens for alleged corruption in securing certain banks as city depositories.

### An Easy Way to Clean Greasy Pots and Pans

Cleaning the pots and pans and kettles is usually a most disagreeable piece of work, but like everything else there is an easier way to do it, if one knows how. As soon as the food is removed, pour in water and dissolve in it Gold Dust in the proportion of one tablespoonful to a gallon of water. Leave to soak while washing the dishes, then pour off the water and fill with clean suds made in the same way. If particles of food still adhere to the inside of the utensils, use pot-rings for removing them.

### WOMAN'S HAIR.

A. A. Clarke Knows of a Preparation That Makes Hair Fascinating.

Parisian Sage is the ideal hair tonic and beautifier of the present time. It is compounded on the most advanced scientific principles and nothing can compare with it.

It accomplishes so much more than the ordinary tonics, and does it so quickly that users are astonished.

Parisian Sage kills the dandruff germ and eradicates dandruff in two weeks, or money back.

Parisian Sage stops falling hair; itching of the scalp and splitting hairs, or money back.

Since its introduction into America it has become a prime favorite with women of refinement.

Parisian Sage gives a fascinating lustre to women's hair and makes it beautiful. It makes the hair grow luxuriantly; it is the simplest and most refreshing hair dressing that science has produced, and has not a particle of grease or stickiness in it.

A large bottle of Parisian Sage costs but 50 cents at A. A. Clarke's and druggists everywhere. The girl with the Auburn hair is on every package.

## THE GUILT OF JOHN KINLEY TENER.

The sum and substance of the accusations of the Philadelphia North American against the integrity of the Republican candidate for Governor is that the latter was President of a Philadelphia corporation whose holding obligations were greater than its financial capacity, with the natural result that it became too-heavy and tumbled into bankruptcy.

The Philadelphia paper tells us that this Philadelphia company has no assets whatsoever; yet it admits that it had an Oregon railroad franchise. Whether this franchise and the other assets upon which the company placed a value of \$2,000,000 does not admit of any argument. We further find in the testimony of the North American that some work had been done on the railway, thus confirming the judgment that the franchise had actual value.

It further appears from the charges themselves that Tener had no hand in the organization of these companies and their various mergers into the National Public Utilities Corporation; that he accepted the Presidency at the solicitation of an old friend who once worked in his bank; that he came into the organization late and remained briefly.

It is fair to presume, therefore, that he entered the enterprise carelessly rather than criminally; that he trusted his friends and accepted their statements concerning the company and prospects of the company; that this trust was betrayed; and, finally, that as soon as he suspected this fact he severed his connection with the company as fast and as far as he was able.

No one who thoroughly knows John Kinley Tener will harbor the thought that he engaged in this enterprise for the purpose of swindling anybody. He isn't that kind. His neighbors will attest this fact.

To sum up, therefore, it seems that Tener has been guilty of having been connected with a business enterprise that failed. His sin would have been a virtue had the company succeeded. He may reasonably hope for forgiveness by the business world below, high heaven above and the common people between, but from the professional organ of Philadelphia reform, warning the Wannamaker halo, never, no, never!

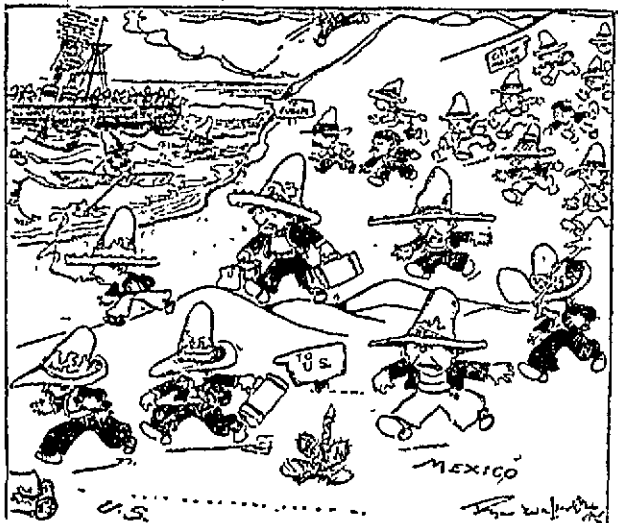

## WHAT COLONEL CRAIG DID NOT SAY.

In his energetic advertising campaign, we note with regret that Jesse Hook Wise, Democratic and willing to be Keystone nominee for Congress in this district, has neglected the passionate and pulsating issues of Pure Politics and the American Way and is leaning suddenly upon the slanderous statement that Colonel Thomas S. Craig, his Republican opponent, calls Colonel Theodore Roosevelt a comrade in the Spanish-American War, "a demagogue of the worst type."

Colonel Craig, who is a soldier and a gentleman, says this charge is totally and utterly false; and, until it is supported by better evidence, than that contained in an irresponsible unmarked political advertisement, we must accept the statement of Colonel Craig as the most direct, definite, final and conclusive evidence on this particular point.

If we may be permitted, we would advise the over-enthusiastic and irresponsible Democratic candidate for Congress to stick to his own and only platform and not descend to the depths of infamous calumny.

Stand up, Jesse Hook Wise; stand up like a Jackson Democrat; don't stoop like a Juggling Demagogue!

## ADVISABLE TO GET OUT.

An evodus into the United States and to Europe of those active in opposing the reelection of Diaz of Mexico is in progress.—News Item.

## HOMES FOR THE WORKINGMEN.

It is the universal drawback of public-spirited towns with limited means seeking expansion that the location of new industries therein is always accompanied by an embarrassing lack of homes for the workmen thus brought in wholesale numbers into such enterprising communities.

Houses are provided in time, but seldom rapidly enough to meet the demand. The owners of the new Ripley glass plant in South Connelville will not depend upon Connelville's capital to build houses for their workmen.

They propose to build such homes themselves, and to make them modern and comfortable, a decided improvement over the ordinary tenement. Connelville has reason to congratulate itself on the accession of this industrial plant. Its proprietors ask no favors further than that one which is due to every body, namely, fair play.

They should have that and more at the hands of the Connelville people.

## THE SCOTTSDALE PLAN OF MINING UPLIFT.

Scottdale is younger and smaller than Connelville, but it frequently betrays more public spirit and foresight than its older and larger neighbors.

For several years past its Young Men's Christian Association seems to have maintained a free night mining class taught by a neighboring mine foreman who volunteered his services. This class, we are advised, has been highly successful. It has been the means of advancing the ambitions of worthy young men and of supplying the mining industry with that which it needs above all other things, namely, faithful and competent mine and fire bosses.

We commend the Scottdale plan to the Connelville Young Men's Christian Association, whose efforts in this line have been most praiseworthy but rather intermittent.

## THE OUNCE OF TYPHOID PREVENTION.

"Hold the water!" is not a welcome announcement to the people of Connelville, who have through so many years been blessed with excellent water in abundance, and there are many citizens who receive the admonition with incredulity and even scorn. This wise, however, will heed the warning. Better a little inconvenience for a little time than long suffering or a long journey to that land whence travelers never return and send wireless messages only to favored mediums.

If the warnings of The Courier had been heeded by the proper authorities at the proper time we would in all probability have been saved present apprehensions and perhaps some past and present sickness.

As we stated then, so we now repeat, Dr. Benjamin Franklin's famous proverb, "An ounce of prevention is worth a pound of cure."

A West Side butcher says his slaughterhouse is clean, but, as usual, doubts upon the cleanliness of others, and calls attention to the fact that in the present state of water most if not all sewerage discharges into the above water level. These matters should have the attention of the Board of Health. It is had enough to impregnate the water with disease germs, but it is worse to let them loose in the open air.

With diphtheria and whooping cough to the south of us and typhoid in our midst, it behooves the Connelville health authorities to keep busy on their job.

The free bridge opposite has climbed the mountain and invaded Springfield township.

The Untertown Standard informs us that the Daughters of the American Revolution will hold their annual meeting in Untertown, that is to say at the Summit Hotel, etc. etc. away; you there was a time when The Standard was a good deal more than a newspaper.

The strike of the D. & O. shopmen was long-drawn-out and seems to have ended in a draw.

The representatives of the water company say they are not hunting germs, but we want to be sure the germs are not hunting us.

Scottdale's exhibitions of Wild West gunplay are too much for the nerves of some of her citizens.

The Chamber of Commerce might to hold fast to the Western Maryland shops.

## CHINESE COKE IS SENT TO FRISCO.

It and Other Products of Coolie Labor May Compete on Coast.

## LOOKING FOR A MARKET HERE

United States Consul Estimates Within 10 Years China and Manchuria Will Export 2,000,000 Tons of Coal a Year—Other Products.

United Press Telegram. WASHINGTON, Oct. 17.—In place of the Chinese labor problem, which was settled by the exclusion of coolies, a new problem now is presented by the appearance of the products of such labor, made in China, seeking admission to the American markets. Coal, coke, fire brick, cement and tiles produced under labor conditions existing in China are offered in San Francisco in competition with American products. Success there means

an invasion of the entire coast from Seattle to San Diego.

In an effort to establish a market, a Chinese mining company has landed in San Francisco a cargo of coal comprising anthracite, 2,000 tons; lump 800 tons; slack 1,000 tons and special coke, five tons. Ten trucks of cement were sent along for testing purposes by American users of that material.

A representative of the company which is under foreign management, and one of the strongest industrial concerns in China, has been sent to this country to work up the trade. The concern, with others, has extended its products beyond the home demand in China and this, the largest company in the business, looks to the United States to take its surplus. The capacity of its mines is 1,337,200 tons a year, or 5,500 tons a day. It has over 3,000,000 tons of coal in sight and its total resources are estimated at 30,000,000 tons. The output last year amounted to 1,761,730 tons. Five other companies in China produce 600,000 tons of anthracite coal last year. The Germans in Shantung and the Japanese in Manchuria are also developing coal deposits.

United States Consul Knabenshuf, at Peking, estimates that within 10 years, if foreign markets are found, China and Manchuria will be exporting 2,000,000 tons of coal a year. The big coal company mentioned is interested in the manufacture of cement, fire brick, tile and ornamental tiles for which it is seeking entrance to the United States. Knabenshuf expressed the opinion that with the low cost of production in China and the cheap ocean freight they will be able to offer dangerous competition on the coast and in the Philippines.

Evidence that China is preparing to compete in the markets of the world is afforded by the fact that in the present year, a steel corporation on the Pacific coast of the United States, contracted with the Ta Yeh Iron mine on the Yantse to take annually for 15 years 35,000 tons of pig iron and 35,000 tons of iron ore.

## MANUEL OFF FOR ENGLAND

Deposed Portuguese King and Royal Family Leave Gibraltar.

Gibraltar, Oct. 17.—Ex-King Manuel, his mother, ex-Queen Amelie and Don Afonso, Manuel's uncle, have sailed from here on the British royal yacht Victoria and Albert for England. Their embarkation was attended by the full ceremony observable in the case of a reigning sovereign. The military honors ashore included the playing of the Portuguese anthem and saluted the party as they boarded the yacht. Manuel's grandmother, Maria Pia, sailed on the Italian war ship Regina Italia for Italy.

Rheuma Drives It From the System and Cures Rheumatism. Ever since A. A. Clarke secured the privilege of handling Rheuma in Connellsville, the sales have been very large. This is due to the fact that Rheuma really does cure Rheumatism, and that it is guaranteed to cure Rheumatism of money back. It is a quick acting remedy, too. You don't have to wait a long while for results, for Rheuma starts at once to act on the kidneys, liver, bowels and blood, and before 24 hours the poisonous Uric Acid, which causes Rheumatism, has begun to pass out of the body through the regular channels. One 50 cent bottle will prove to any Rheumatic sufferer that Rheuma surely will cure Rheumatism. For quickest relief from acute rheumatism, try English Rheuma, 25 cents, at A. A. Clarke's. ## WELLMAN FAR OUT OVER OCEAN.

Monster Dirigible Beyond  
Range of Wire-  
less.

PASSES CLOSE TO NANTUCKET

Last Message Received From Inland  
Balloonist Says All is Well and Try  
For England Will Be Made—Great  
Banks of Fog Hid the Balloon.

### WIRELESS MESSAGES TELL OF AMERICA'S PROGRESS.

Woods Hole, Mass., Oct. 17.—The  
first message caught at Siasconnet,  
Nantucket, from Wellman's airship  
America read:

"Have shut down motors and am  
heading east, northeast. Making  
twenty-two knots an hour without en-  
gines. Saving fuel for wireless.  
Dynamoes not working. Thick fog. No  
observation obtainable.—Wellman."

Later this message was picked up:  
"The outlook not so favorable, but  
we are keeping up the fight.—Well-  
man."

"All well," said another message.  
"No trouble with machinery. Expect  
to make the trip." This message was  
signed by both Wellman and Jack  
Irwin, wireless operator of the  
America.

### Flying on Westerly Breeze.

New York, Oct. 17.—Swept onward  
by a sturdy westerly breeze, Walter  
Wellman's great dirigible, America,  
first of aircraft to hazard trans-  
Atlantic passage, was following the  
steamship lanes up the Atlantic  
coast at a late hour last night, out of  
wireless range from shore points but  
presumably continuing her unbroken  
course with all well on board.

The giant craft had passed Nant-  
ucket island earlier with propellers  
idle and had held brief wireless com-  
munication with the Marconi station  
at Siasconnet.

In all of the messages there was  
no hint of the airship's location, but a  
signed "goodby" indicated that Well-  
man, whose dream is to be the first  
Columbus of the air, had, on passing  
Nantucket, turned the nose of his  
craft in a more northerly direction  
with the British Isles as his goal.

### Atlantic City Anxious For News.

Atlantic City, N. J., Oct. 17.—Puffs  
who learned that the officers and  
crew of the outboard steamer Como  
were the last to have reported having  
seen Walter Wellman in the airship  
America, headed for Europe, hurried to  
the wireless station on the Million  
Dollar pier and learned that the air-  
ship had just been spoken some place  
off Nantucket.

The last message had been picked  
up by the wireless operator at Sias-  
connet, on the southeast corner of  
Nantucket island. Siasconnet re-  
layed the message here through the  
Hagapoint station.

"All well," said the message. "No  
trouble with machinery. Expect to  
make the trip." The message was  
signed by both Wellman and Jack  
Irwin, wireless operator of the  
America.

### In Fog Bank.

From reports from Siasconnet  
there evidently was not enough of off-  
shore breeze to roll away the fog into  
which Wellman had nosed his way  
from here. The strength of the wire-  
less response to Siasconnet's first  
call led to the belief that the America  
was close to Nantucket, but the fog  
prevented the Siasconnet operator  
from sighting the airship.

The Nantucket operator followed his  
first message by one saying he had  
again picked up the America. Well-  
man had reported in this second mes-  
sage that all was going well aboard  
and the America was headed east by  
north through the fog.

The Nantucket operator added that  
Irwin's reply was very brief, as he  
wished to "hush" his limited wire-  
less equipment for emergencies or  
other important news.

Speed of Twelve Miles an Hour.  
An air line from Atlantic City to a  
point off Nantucket measures approx-  
imately 300 miles. According to these  
figures the America is maintaining an  
average speed of twelve miles an  
hour.

A trip of 3,000 miles at the same  
speed therefore would require steady  
flight for ten days or more. The off-  
shore wind was doubtless a big help  
to the aeronauts.

Joseph W. Salls, president of the  
local syndicate which backs Wellman,  
is staunch now in his belief that the  
America's crew will make a hard fight  
to reach the other side of the Atlantic.

Mr. Salls followed his first message  
of yesterday with another, which ran:  
"Walter Wellman, aboard the air-  
ship America: Godspeed your project.  
Success means your enrolling me as  
a second Columbus. Do everything  
possible to keep your friends in At-  
lantic City and your family informed  
of both your daily situation and pro-  
gress. Mrs. Wellman, Mrs. Vandeman  
and other members of the families of  
the America's crew most hopeful."

The federal authorities at Washing-  
ton showed their interest in the  
America's voyage by sending out a  
request to wireless stations and to  
ships on the high seas equipped with  
wireless apparatus to try and send as-  
surances to the America's crew that

they need have little fear of the West  
Indian hurricane which the weather  
bureau reported as headed toward the  
North Atlantic coast from off the  
Florida Keys. The weather bureau  
sent out word that the hurricane had  
blown itself out.

A. T. Hall, representing the Ameri-  
can Expedition company, sent a wire-  
less to Wellman, which said:  
"Atlantic extends congratulations to  
the American crew."

### Think Messages Don't Reach.

Doubt is expressed here that few  
if any of the messages that are being  
sent to the America by backers and  
relatives of the aeronauts are being  
picked up by Jack Irwin aboard the  
airship.

The small and weak wireless equip-  
ment of the America, experts say, also  
will probably have difficulty in rep-  
lying as the vibrations of the Ameri-  
can's engine may muddle the sound  
waves sent shoreward by Irwin. There  
is further to be considered the tang-  
ible resulting from the interference of  
the more powerful wireless waves  
coming from the big liners along the  
coast.

### While Looking Far Ahead.

Washington, Oct. 17.—"I confidently  
believe that the time will come when  
airships as big as the Mauretania and  
carrying as many passengers will cross  
the Atlantic. I think Walter Wellman  
has a fine chance of success," de-  
clared Claude Graham-White, the En-  
glish aviator.

### FROM PARIS TO LONDON

Dirigible Accomplishes First—First  
Time in History.

London, Oct. 17.—The passage from  
France to England by means of a  
dirigible balloon was accomplished for  
the first time when the new Clement-  
Bayard airship, on which a British  
parliamentary committee has an op-  
tion, made an uneventful voyage over  
the channel. It started from near  
Paris and reached London in a little  
less than six hours.

The airship traveled with the great-  
est steadiness for the whole 250 miles.  
Seven persons were aboard.

### KETCHEL'S SLAYER

Taken by Farmers at Ranch House  
Without Any Trouble.

Springfield, Mo., Oct. 17.—Walter A.  
Harris, alias Walter Dimpley, who shot  
and killed Stanley Ketchel at the  
ranch of B. H. Dickerson, seven miles  
from Conway, Webster county, Mo.,  
was arrested by three farmers near  
Wlangua, Webster county, seventeen  
miles from the scene of the crime.

The prisoner then told of the al-  
leged remarks made to Goldie Smith  
by Ketchel on the day before the mur-  
der, saying he killed Ketchel because  
he feared he would lose his own life,  
as Ketchel had a revolver in a belt  
around his waist.

When arrested Dimpley did not have  
the revolver taken from the body of  
Ketchel. He said it was in Haggard's  
barn, where it was found. Dimpley was  
taken to Marshfield and placed in jail  
there.

### COAT OF TAR FOR WRIGHT

Citizens of Morrisville, Pa., Take  
Summary Means of Punishment.  
Trenton, N. J., Oct. 17.—Residents  
of Morrisville, Pa., a village just  
across the river from this city, took a  
summary method of punishing Amos  
Wright. He gave liquor to a minor,  
it is alleged.

A number of men took Wright to a  
shed, smeared him with tar and rolled  
him in feathers. Then he was turned  
loose on the streets looking like a  
Punch mascot for a comedy part in  
Chandler. Wright says he knows his  
tormentors and will prosecute them.

### HURLS BABE FROM WINDOW

Mother Then Jumps From Burning  
House, Neither Injured.

New Canby, Pa., Oct. 17.—A six-  
month-old babe was thrown from a  
second-story window by a frantic  
mother when fire broke out in the  
home of Henry Sanford. The woman  
leaped from the same window and  
both mother and babe were unhurt.

A tank in the house which attached a  
gas heater with the feed pipe caused a  
terrible explosion while Mrs. San-  
ford was engaged in housework on the  
second floor.

## WORLD'S SERIES STARTED TODAY.

Cubs and Athletics Meet for  
Baseball Champion-  
ship.

FIRST GAME AT PHILADELPHIA

Enormous Crowd Packed Stands at  
Shibe Park—Mack Secretive About  
Line-up, While Chance Names All  
Players Except Pitcher.

Philadelphia, Oct. 17.—All roads led  
to Colonel Ben Shibe's American  
league ball park today and an enor-  
mous crowd promises to attend the  
first game of the world's series be-  
tween the Cubs and Athletics. Hun-  
dreds of seats applicants have been  
turned down because of a lack of ac-  
commodations.

Shibe park will hold not more than  
35,000 persons but the managers say  
that many more will attend the  
game.

Members of both teams will go on  
the field confident. Manager Mack of  
the Athletics simply draws out that  
he hopes to win. Mack is of a secre-  
tive character. He has always been  
that way and in the game on which so  
much rests this phase of Mack is ac-  
centuated. Mack wouldn't announce  
his line-up.

### Chance Names Line-up.

With one exception, Manager  
Chance of the Cubs was free to an-  
nounce the names of the men upon  
whom his hopes for success were  
based.

The outfield will be composed of  
Sheppard in left, Hoffman in center  
and Schulz in right. There is not a  
man in the lot who is not an expert  
gauger of a fly ball. In addition Hoff-  
man and Schulz are the team batting  
pacemakers. They are perhaps the  
most formidable sticksmen on the  
team that the Mack pitchers have in  
tune. Sheppard is not a very heavy  
batter, but he has his place on the  
team through his ability to get on  
base and let the others bat him home.

Chance, Zimmerman, Tinker and  
Steinfeldt will cover the infield po-  
sitions. Even without Evers this is a  
powerful combination that is strong  
in every respect. They are all swift,  
sure fielders and are dangerous men  
at bat.

John Kling, generally conceded to  
be the best catcher in America, will  
strap on a windup and probably keep  
on the job throughout the games.  
There is no questioning the strength  
of the Cubs behind the bat, and even  
if Kling is disabled they have another  
topnotcher in Archer.

When it comes to naming the  
pitcher Chance for the first time be-  
came silent. "Wait," he said resolutely.  
In the betting the Cubs are slight  
favorites.

It is predicted the pitchers will be  
Coombs for the Athletics and Overall  
for the Cubs. Strunk may cover  
centerfield for the Athletics instead of  
Oldring, who is laid up with a  
wrenched knee.

The umpires are O'Day and Rizer  
of the National league and Connelly  
and Sheridan of the American league.

### SIX HURT IN COLLISION

Passenger Train and Yard Engine  
Crash at Washington, Pa.

Washington, Pa., Oct. 17.—Six per-  
sons were injured, one seriously, when  
a Panhandle railroad passenger train  
struck a yard engine.

The injured are: Ollie McAfee, Mrs.  
Alexander Beeson, Adlene Beeson,  
William Beeson, Daniel Lindafelter  
and Mrs. Charlotte Gentile.

The shifting engine was wrecked  
and the passenger locomotive was dis-  
abled while the platform of the  
coaches were smashed off and win-  
dows broken. A misunderstanding in  
time is said to have been responsible.

### Traction Car Jumps Track.

Boston, Oct. 17.—Two passengers  
were killed and about twenty injured  
when an inward bound Cambridge trol-  
ley car jumped the tracks.

## \$20 Should Be the Price of These Women's Suits Instead of \$15.

During July when the cloak and suit strike was at its worst in New York, a  
maker of good clothes for women moved his factory out of the strike zone and had  
his choice of several expert makers go with him. Predicting a long spell of idle-  
ness, this man figured that if he ran his plant even at a loss it would be better than  
being idle indefinitely. With the notable workers and the undeniably good fab-  
rics, his business assumed such proportions at the model little plant that our big  
order placed soon after he began business anew, just arrived a week ago. From  
our knowledge of the suits carried by every store in town our price \$15.00 is just  
\$5.00 less than the best \$20.00 suit in other stores.

### At \$15

The suit are of fancy stripe serge in  
black, blue, green and brown. Coats  
are well modeled and are lined with  
good satin; skirts are of conventional  
width and have pleats in cluster effects.

### At \$18

Are suits in black and blue  
only, from the same maker.  
The garments are made of  
fine French serges, perfectly  
tailored, approved lengths and  
well lined. Specially priced.

### At \$25

Are suits as far ahead of other \$25  
suits as are the \$15 ones. From per-  
fectly shaped shoulders to skirt hem  
the work of the artist tailor is evi-  
denced. All fabrics, all sizes.
